

Refreshingly Peaceful

www.napoleonheatingandair.com

Q U I E T P E R F O R M A N C E

We spend a large majority of our free time inside our home and we want this haven to be not only comfortable, but worry free. Keeping your home comfortable begins with the ability to maintain the right temperature, providing cool relief on those long, hot days.

An air conditioner cools and dehumidifies indoor air. By keeping your thermostat at a constant temperature, your air conditioner will keep those humid hot days and every day feeling refreshing.

In order to be able to accomplish all this, your air conditioner needs to be sized correctly in order to maintain balance. Ask your Napoleon HVAC dealer to check what size air conditioner fits your home & needs.

Efficient Cooling Comfort

AIRamus™

Features

- High efficiency, high reliability Benchmark compressors
- Full range 13 SEER units from 1.5 to 5 tons cooling capacity
- Full metal, powder coated jacket provides superior finish and rust/corrosion resistance while protecting the coils from any damage
- Bi-flow liquid line with filter drier, factory installed on every unit
- Totally enclosed, permanently lubricated fan motor with specially designed fan blades for efficient, WhisperQuiet™ operation. Thermostatic expansion valve (TXV) is used to meter the flow of liquid refrigerant thus protecting the heart of the unit, the compressor
- Heavy gauge galvanized steel construction base pan
- Drainage holes prevent moisture from accumulating in the base pan
- Plastic coil protection between coil guard and condensing coil
- ARI certified. Rated in accordance with DOE test standards
- 10 year limited compressor warranty
- 5 year limited parts warranty

R U G G E D , R E L I A B L E Q U A L I T Y

The compressor is the heart of the air conditioning unit. Napoleon's AIRamus™ series air conditioners are powered by the Benchmark Compressor, taking hold of the industry with new standards in high reliability, and quieter performance. By offering the Benchmark compressor in Napoleon's AIRamus™ series air conditioners, you are getting the very best product available.

On a long hot day, your compressor will work hard for you keeping your family cool, keeping the humidity down.

Benchmark Compressor Features (1.5 to 5 ton):

- Superior quality
- Higher efficiency (19+ EER @ 45/100)
- Quiet - Rigid low noise cylindrical housing
- Unique suction muffler
- Robust suction and discharge valve plates
- Thermal fault protection
- Lower vibration
- Fewer hermetic welds than competitive models
- Innovative design

AIRamus™ Unit Descriptions and Layout

Model Number	Description	Dimensions			Cooling Capacity (BTU/H)
		Depth (in.)	Width (in.)	Height (in.)	
NC18D1VAR	1.5 Ton Outdoor AC	23	23	32	18,000
NC24D1VAR	2 Ton Outdoor AC	30 1/4	30 1/4	27 1/2	24,000
